

# Weekly Crop & Weather Roundup

## Northeastern Regional Field Office

4050 Crums Mill Road, Suite 203 · Harrisburg, PA 17112-2875  
(717) 787-3904 · (717) 782-4011 FAX · [www.nass.usda.gov](http://www.nass.usda.gov)

Week Ending November 10, 2013

Issued weekly, April-November

Released November 12, 2013, 4 pm

-----  
*This report can be found on the Internet at [www.nass.usda.gov/pa](http://www.nass.usda.gov/pa) and click on "Pennsylvania Publications."*

**Fair Week for Field Work:** Pennsylvania had an average of 4 days suitable for field work. The weather this week was mostly sunny. Temperatures ranged from the high 20's to the low 60's. Fall plowing is almost completed. Harvest is near completion and winter grains are looking good. Reports are generally high for corn and soybean yields all over the state. Corn harvest has slowed down this week due to the lack of storage. The grape harvest is complete. Looking to the week ahead, temperatures in Pennsylvania range from the mid 20's to the high 50's. Field activities for the week include harvesting corn and soybeans, planting winter wheat, applying fertilizer, mowing pastures, spraying herbicides and pesticides and applying lime to fields.

### PA Topsoil Moisture for Week Ending November 10, 2013

Very Short	Short	Adequate	Surplus
Percent	Percent	Percent	Percent
0%	1%	95%	4%

**Crop Progress:** Fall plowing is 90% plowed, which is ahead of progress at this time last year of 88% and the 5-year average of 79% plowed. Corn harvested is 76% harvested, which is behind progress at this time last year of 78% but ahead of the 5-year average of 73% harvested. Winter wheat is 92% planted, which is ahead of progress at this time last year of 89% and the 5-year average of 90% planted. Winter wheat is 78% emerged, which is ahead of progress at this time last year of 70% and the 5-year average of 75% planted. Soybeans are 87% harvested, which is ahead of progress at this time last year of 75% and the 5-year average of 74% harvested. Grapes are 100% harvested.

**Crop Condition:** Winter Wheat conditions are; 0% very poor, 1% poor, 5% fair, 59% good, and 35%

excellent. Pasture conditions are; 2% very poor, 14% poor, 42% fair, 41% good and 1% excellent.

**Nationwide as of November 3, 2013:** Cool, wet weather conditions slowed fieldwork across most of the Ohio Valley and lower Mississippi Valley during the week. Elsewhere, drier conditions across the northern Great Plains promoted rapid fieldwork, despite temperatures averaging more than 5°F below normal in some locations. Heavy precipitation covered much of eastern Kansas, with some areas receiving 800 percent of the normal weekly precipitation. Corn: Nationally, 73 percent of the corn was harvested by week's end, 22 percentage points behind last year but 2 points ahead of the 5-year average. Iowa farmers harvested 20 percent of their corn for grain for the second week in a row. Seventy-five percent has now been harvested in Iowa, 4 percentage points ahead of normal. With corn harvest advancing ahead of the normal pace in Iowa, this marked the first time all season corn progress was ahead of the 5-year average. Soybeans: Eighty-six percent of the soybean crop was harvested by week's end, 6 percentage points behind last year but slightly ahead of the 5-year average. For the second consecutive week, North Dakota producers harvested at least 17 percent of their soybean crop. Winter Wheat: By November 3, producers had sown 91 percent of the nation's intended 2014 acreage. This was identical to last year's pace but slightly ahead of the 5-year average. Nationally, 78 percent of the winter wheat was emerged by week's end, 6 percentage points ahead of last year and 5 points ahead of the 5-year average. Overall, 63 percent of the winter wheat crop was reported in good to excellent condition, up 2 percentage points from last week and 24 percentage points better than the same time last year.

## REPORTERS COMMENTS, By County

*Reporters are from Extension Service (Ext), Natural Resources Conservation Service (NRCS), Farm Service Agency (FSA), Conservation District (CD), farmers, commodity specialists, or other knowledgeable individuals.*

### **ADAMS County, Judy A. Behney**

Temperatures in Adams county ranged from the high 20's to the low 60's this week. Corn and soybeans continue to be harvested with good yields being report and with producers storing in whatever type of storage they can get as the mills are scheduling loads to be delivered to them and producers want to continue to harvest crops as they want to beat any bad weather conditions and loss of yields in the future. Wheat and barley is looking pretty good that was seeded earlier and newly established hay seedings are also looking pretty good.

Apple harvest is pretty much done except a few larger producers are picking another week. Apple yields are pretty good this year for most growers but prices are lower this year. Springtime weather conditions did affect Apple yields some in certain areas of the county. Overall the producers are busy harvesting and seeding small grains and or cover crops for the winter.

### **BUTLER County, L Fritz**

Snow and wintery conditions are slowing corn harvest; yields are excellent so finding local storage is becoming a problem. There are still a few fields of soybeans to be harvested. Some producers are spreading lime when conditions permit.

### **CAMBRIA County, Dolly Little**

Corn harvesting continues.

### **CENTRE County, Dick Decker**

Good week to continue corn and soybean harvest.

### **CLARION County, Tom Tanner**

Harvesting corn and soybeans. Farmers planting cover crops.

### **FRANKLIN County, Thomas Kerr**

Corn harvest has slowed due to lack of storage space. Week spent hauling manure, baling fodder and finishing the soybean harvest.

### **LANCASTER County, Jeff Graybill**

Cool weather has fall grains and cover crops growing very slowly. May reduce winter survival for some fields.

### **SNYDER County, William C. Sheaffer**

Harvest is near completion. Winter grains are looking good. The main activities for the week were harvesting and chopping corn stalks.

**PA Crop Progress for Week Ending November 10, 2013**

Crop	Current Week	Last Year	5-Year Average
